Phillip W. Stevens, Ph.D.  
Vice Chairperson

Steve Holmes  
Executive Director

To All Interested Parties:

As you know, the 2019 Legislature has approved the bill allocating \$10 million to the Transportation Disadvantaged Trust Fund (SB 7068). These funds will be used to competitively award grants to CTCs and TNCs. The Commission is providing a second opportunity to apply. Attached are the Program Manual and Application forms. It is imperative that you read the entire manual and instructions as it contains specific guidance and requirements for the submission of grant applications.

**Applications are due June 28, 2019!**

Mail one original application to the Commission at the address below. Electronic submission will not be accepted.

Below is the timeline for application submittal, review and approval.

June 6, 2019	Release Grant Application Package
June 28, 2019	Application Package Due
July 18, 2019	Subcommittee Meeting
July 31, 2019	Commission Meeting
August 2019	Tentative Project Start Date

We understand that this, again, is a short timeframe to submit applications. The intent is to be able to begin providing services as soon as possible to take advantage of as much of the fiscal year as possible. Since this is the second opportunity, we hope you have been working on developing or “fine tuning” your project scope. Remember, more than one project can be proposed by the same entity. However, a separate application package for each proposed project is required. Required signatures may be obtained after submission but prior to grant agreement execution (if awarded).

Please share this grant opportunity to those who may be interested.

Contact your project manager or the Commission if you have any questions or need additional information. We look forward to receiving many great innovative applications!

Thank you -
